The Art of Music Production

**The Technology of Music
Production**

Pro Tools Basics

Music Production Capstone

Jun 25, 2021

Maximiliano Quintana

has successfully completed the online, non-credit Specialization

Music Production

This specialization will give you the knowledge and tools you need to record and produce a professional sounding music. You will begin by developing your identity, vision, and intention as an artist and producer. Next, you will learn the technical aspects of music production, including how sound is translated into audio signals, recording techniques, and effects such as reverb, delay, and compression. You will also learn how to use the industry standard Digital Audio Workstation, Pro Tools, to create professional recordings. Finally, you will apply the knowledge and tools you gained in a culminating 4-week capstone where you will complete a project beginning at the pre-production stage through the recording, mixing, and mastering stages.
